Education

Indian Institute of Technology, Patna

2024-2028

B.Tech in Chemical Engineering | CPI: 7.63

Gyan Bharti Global School, Gaya

2022-2023

CBSE | CLASS XII | Percentage: 91.6

DAV Public School Cantonment Area, Gaya

2020-2021

CBSE | CLASS X | Percentage: 92

Projects

DecisionGenome | React.js, Node.js, Express.js, MongoDB, FastAPI, Google Gemini, React Flow | **Source Code** 2026

- Architected an enterprise decision intelligence platform using **React, FastAPI, MongoDB, and Gemini**, 230+ interconnected nodes across 10+ entity types.
- Built an interactive knowledge graph with React Flow featuring **graph traversal, search, node highlighting, and subgraph exploration** for explainable decision analysis.
- Integrated an **AI-powered Decision Copilot** using **graph traversal and Gemini** to answer natural-language queries and generate contextual decision insights.

Hackflow | React, Node.js, Express.js, MongoDB, Socket.IO, Docker, Groq AI | **Source Code** 2026

- Engineered an **AI-powered MERN platform** generating 10+ project artifacts, reducing project planning time by 90%.
- Implemented **20+ REST APIs with JWT authentication, MongoDB, and Docker**, enabling secure management of 100+ AI-generated project blueprints.
- Leveraged **Groq AI and Socket.IO** for real-time notifications and automated project generation, improving planning speed by 10×.

Image Generator | React, Node.js, Express.js, MongoDB, Stability AI API | **Source Code** | **Vercel Deployment** 2025

- Developed an AI-powered image generation platform using **Stability AI API**, supporting prompt-based image creation across 5+ categories.
- Built RESTful APIs for efficient multi-user request handling and real-time processing.
- Built a **responsive frontend** with React 19 and Tailwind CSS, optimized for mobile, tablet, and desktop.

Skills

Programming Languages: C, C++, JavaScript, Python

Core CS Concepts: Data Structures & Algorithms, Object-Oriented Programming, REST APIs, Computer Networks, Operating Systems

Frameworks: React, Node.js, Express.js, Tailwind CSS

Tools: Git, GitHub, VS Code, Postman

Database: MongoDB

Cloud / DevOps: AWS, Docker

ML Tools: Numpy, Pandas, Matplotlib, PoseNet(ml5.js)

Courses

Core Courses: Data Structures, CS1101 - Introduction to Computer Science

Mathematics: Probability Theory and Ordinary Differential Equations

Achievements

- Selected among **Top 200 participants** in Flipkart Girl Wanna Code 7.0.
- Codeforces Rating: **1034 (Competitive Programming)**.
- Secured **National Semi-Finalist** position in the **CreaTech and Tata Imagination Challenge**
- Ranked in the **top 0.44% in JEE Advanced**, one of India's most competitive engineering exams.
- Solved **200+ DSA problems** on LeetCode, focusing on arrays, strings, recursion, and tree-based problems.

Leadership / Extracurricular

- Participated in industry hackathons, including Goldman Sachs, Google GenAI, and Google Agentic AI.
- Mentored **5 first-year students** in academics and programming fundamentals.
- Sponsorship Sub-Coordinator, Infinito:** Secured and managed sponsor relations for technical events.
- Sponsorship Coordinator, E-Cell:** Led a team of 15+ Sub-Coordinator for sponsor outreach and event partnerships.
